

IMPORTANT Safety Information
Fluke 1AC-I VoltAlert™

Dear Fluke Customer:

Thank you for your participation in the Fluke 1AC-I recall. We take your safety seriously and want to ensure that you can continue to confidently use your Fluke products. Please take a moment to double check that your voltage tester is the model affected by the recall.

To ensure you have the model that is being recalled, please verify the following things:

1. Part number on the product says Fluke 1AC-AI
2. Unit has a yellow "Battery Check" button in the white tip
3. Solid yellow clip with text 'Fluke VoltAlert'
4. Unit's body is round

Return information

Please write in your shipping address and select the model you want as a replacement. Fluke will immediately send you your new voltage tester. *If no model is selected, you will be sent a 1AC-II.*

Please send the following as a replacement. (check one)

1AC-II Voltage Tester: CAT IV 1000 volts with ON/OFF, Beeper, Voltbeat Technology with a \$37.00 suggested list price

LVD2 Volt Light: CAT IV 600 volts with ON/OFF, LED Flashlight, dual voltage sensitivity with a \$45.00 suggested list price
